<https://www.linkedin.com/in/jerome-aushlin-s-b65227206/>

## Profile

Motivated and detail-oriented Flutter developer with 1.5 year of hands-on experience in building cross-platform mobile applications. Proficient in utilizing Flutter framework to develop responsive UI components, integrate RESTful APIs, and implement state management solutions like Provider Model pattern. Skilled in optimizing application performance and ensuring code quality through rigorous testing and debugging. Collaborative team player adept at communicating technical concepts and working closely with UI/UX designers and backend developers to deliver high-quality mobile solutions. Eager to leverage skills in a dynamic environment to contribute effectively to innovative projects.

## Education

- Bishop Heber College

2018 - 2021

Bachelor of Computer Science, CGPA: 8.23
- Bishop Heber College

2021 - 2023

Master of Computer Applications, CGPA: 8.37

## Contacts

- 2/96, Kamarajar Street, South Kattur, Trichy
- aushlinjerome@gmail.com
- 9092586016

## Employment

- Azotos software Technologie Pvt. Ltd

Apr 2024 — Aug 2024

I developed mobile apps with Flutter and Dart, emphasizing clean coding, third-party library integration, and rigorous testing. Collaborating with senior developers offered invaluable learning opportunities.
- 2KD2 Solutions

May 2023 — Apr 2024

During this period, I applied my technical skills, learned from senior developers, and contributed to the successful delivery of Flutter-based mobile solutions

## Technologies

Flutter

Dart

Python

HTML

CSS

## Skills

Manual Testing

## Projects

---

### KRISHNA INSTITUTE

- **Description :** The Krishna Institute app, built with Flutter, is designed for NEET and JEE students, offering easy access to study materials, quizzes, and live class schedules. It includes real-time updates for test scores and class notifications. With a responsive design and intuitive navigation, the app ensures a seamless and engaging user experience across all devices.
- **Technologies Used :** Flutter, Dart.
- **Role :** Flutter UI Developer

### ELENA SPORTS

- **Description :** Elena Sports is a Flutter-based app tailored for sports academies, streamlining payment management and simplifying fee handling. It offers features for efficient payment processing, tracking, and record-keeping, ensuring smooth financial operations with a user-friendly interface.
- **Technologies Used :** Flutter, Dart.
- **Role :** Flutter UI Developer

### INFLUENCER

- **Description :** The influencer app connects influencers and audiences with brands for promotional opportunities. It allows influencers and users to apply for brand promotions through a seamless interface, featuring profile management, campaign tracking, and real-time notifications.
- **Technologies Used :** Flutter, Dart.
- **Role :** Flutter UI Developer

### COIFFURE

- **Description :** The mobile app features distinct functionalities for employees, customers, and administrators: employees manage attendance, customers book appointments, and administrators access revenue reports. This versatile design ensures a user-friendly experience for all users while meeting the business's operational needs.
- **Technologies Used :** Flutter, Dart, Restful APIs, Provider.
- **Role :** Flutter Developer

### PHARMACY

- **Description :** The Royal Pharmacy app offers a convenient way to purchase medications online, featuring a wide range of products for all healthcare needs. Users can browse, order, and receive deliveries directly to their doorstep, all through a user-friendly and secure interface.
- **Technologies Used :** Flutter, Dart.
- **Role :** Flutter UI Developer

## Projects

---

### CARSSEA

- **Description :** Carssea app streamlines buying and selling cars by allowing buyers to explore a range of reliable used vehicles and sellers to list their cars effortlessly. Its user-friendly design ensures a smooth and hassle-free experience for all users.
- **Technologies Used :** Flutter, Dart, Restful API's, Provider.
- **Role :** Flutter Developer

### A&F VENTUREZ

- **Description :** Developed with Flutter, the logistics app enhances supply chain management with features like order tracking, inventory management, and delivery scheduling. It offers real-time data integration and optimized performance for a seamless and efficient user experience.
- **Technologies Used :** Flutter, Dart, Restful API's, Provider.
- **Role :** Flutter Developer

### VISITOR MANAGEMENT

- **Description :** Visitor Management, built with Flutter, tracks and registers attendance for vehicles and employees or visitors in both apartments and companies. It offers real-time logging, comprehensive reports, and user-friendly interfaces for efficient access management and smooth operations.
- **Technologies Used :** Flutter, Dart, Restful API's, Provider.
- **Role :** Flutter Developer

### GYM POS

- **Description :** The GYM POS app, developed with Flutter, streamlines gym management by allowing users to join gyms, track attendance, and purchase memberships. Gym owners can register gyms, create membership plans, and manage enrollments, simplifying operations and enhancing the fitness experience.
- **Technologies Used :** Flutter, Dart, RESTful APIs, Provider, Model.
- **Role :** Flutter Developer

### AA-CONSULTANCY

- **Description :** AA Consultancy, built with Flutter, is an on-demand service app where customers can browse service categories, submit inquiries, and receive timely responses from consultants. It offers a user-friendly interface for exploring options and managing requests, ensuring a seamless experience for expert advice and tailored solutions.
- **Technologies Used :** Flutter, Dart.
- **Role :** Flutter UI Developer

## Projects

---

### TEAM PILOT

- **Description :** Team Pilot is a mobile app that supports IT industry roles by allowing Company Admins to manage projects and employee details, HR to oversee leave and work reports, and employees to track attendance, apply for leave, and update tasks. The app offers a comprehensive solution for efficient project and personnel management.
- **Technologies Used :** Flutter, Dart, Restful API's, Provider, Model.
- **Role :** Flutter Developer

### TN-EDII

- **Description :** The TN Edii app, built with Flutter, is an online class platform that supports access to learning materials, recorded lectures for a seamless educational experience.
- **Technologies Used :** Flutter, Dart, Restful API's, Provider, Model.
- **Role :** Flutter Developer
